

qeeboo

2023 / 24

During the last year, Qeeboo has grown in the consciousness of its role in the design industry. Qeeboo's new catalogue includes some of the greatest designers of our time, creative minds which have a unique ability to transport us to imaginative landscapes, evoking unexpected feelings. Among the designers that cooperated with us this year we have some of the most prestigious names such as Philippe Starck and Estudio Campana.

Philippe Starck created the new Helpyourself table and side table. By working with Qeeboo, Philippe Starck expressed a playful humour and spirit, with a surrealist anthropomorphic creation, imagined as "a family of charming geniuses watch over the happiness of the house by carrying the tables."

Estudio Campana have designed Bacana, a chair with a strong identity expressing at best the Campana Brothers' artistic language. We are proud of having translated it into a sophisticated industrial engineering. I am particularly grateful to Humberto Campana for his great work given the very emotional year he went through.

Among the new products designed by me, Koibuchi, a versatile bookcase that can be used horizontally or vertically wall hanging or freestanding in any type of space, and Saguaro, a coat hanger inspired by the typical plant of the Sonoran desert.

Another important new entry is the Cobble collection, designed by my wife Elisa, which includes a family of tables that can be combined with their chairs. The tables can have a central bucket to be used for multiple functions. The entire collection is suitable for indoor and outdoor use.

We continued our successful cooperation with the multidisciplinary artist Marco Oggian and its powerful graphics by adding a new collection of hyper-colored side tables and mirrors. Nika Zupanc designed an additional product for the Ribbon family: a round mirror that plays with her iconic signature element.

Qeeboo's creations have also seen the launch of Hungry Frog, a lamp designed by Marcantonio which has eaten the lamp bulb, now lighting up in its body, the sculptural animal vases created by the American artist Kris Ruhs and Dai Sugawara's Abyss, a bold fish-shaped table lamp inspired by the anglerfish swimming in the deep seas.

This catalogue is a celebration of creativity and collaboration: I hope that these works will inspire and delight you, and that you will gain a deeper appreciation for the power of design to stimulate our minds, connecting us to our imagination.

Thank you for joining us on this journey,
Stefano Giovannoni

Helpyourself

designed by
Philippe Starck

Table / Side Table

Qeeboo collaborates for the first time with world-renowned creator Philippe Starck on a collection of table and side table. "The Helpyourselfs is a family of charming geniuses who watch over the happiness of the house by carrying the tables." Ph.S. These geniuses with three legs and three arms are the base for two table tops of different dimensions and materials. The bigger one (dining table) holds a 140cm diameter glass top while the smaller one (sidetable) it is moulded in one piece with its 46,5cm diameter polyethylene top.

Bacana

designed by
Estudio Campana

Chair

Qeeboo collaborates with Brazilian designers Estudio Campana on the creation of a chair. The "Bacana" chair is the first Campana's project industrially developed using 100% recyclable polypropylene, known for its durability and resistance. Its twisted design spreads freedom and anarchy in large scale. The winding curves and tangled knots of plastic are a reference to the studio's ethereal, youthful, dynamic language. "Bacana", which in Portuguese slang means "cool", perfectly translates the Campana's vocabulary while using minimum quantities of material, establishing a new standard for sustainable design and mass production. Available in various colors and perfectly stackable.

Koibouchi

designed by
Stefano Giovannoni

Bookcase

Qeeboo introduces a versatile, free-standing bookcase Koibouchi, designed by Stefano Giovannoni. The bookcase can be standing either horizontally or vertically in any space you wish, in an office or in a house, either stand alone to divide spaces or on the wall. Made in recyclable polyethylene and available in different colors, the library can be combined with additional units.

Made in PMMA, available in different colors.

Ribbon

designed by
Nika Zupanc

Armchair / Chair / Mirror

The Ribbon chair, evoking an extraordinarily romantic world, is the feminine chair par excellence. An iconic chair, with a strong identity, characterised by a ribbon designed as a backrest. The ribbon, a lively symbol of gift and celebration, is translated by the designer with soft, light and essential lines. Expanding the Ribbon family after the Ribbon chair baby and the Ribbon Armchair, a comfortable seat made with polyurethane foam covered with fabric, Qeeboo presents the Ribbon Mirror. A round mirror, 55 cm wide, that follows the characteristics of the other products composing this collection. Surrounded by the iconic bow, made in polypropylene in different colors, it completes the romantic set.

DON'T FK WITH THE MOUSE** ARMCHAIR, DESIGN RON ARAD

Primitive

designed by
Studio Nucleo

Armchair / Bookshelf / Sofa

The Primitive bookshelf is one of the strongest and most iconic products designed by Studio Nucleo. Originally made as a limited-edition product, this bookshelf is industrialized by Qeeboo and re-proposed in a recyclable polyethylene version. The Primitive Bookshelf XS is a smaller version that can be easily placed. Both bookshelves are expandible by adding more modules to the first one. After launching the primitive armchair, the Primitive sofa is another addition to the family. It maintains the asymmetrical, padded structure of the armchair introducing the headrest. This version has a longer seat allowing three people to comfortably sit on it.

designed by
Marcel Wanders studio

Lamp

Mabelle is a suspension lamp originally designed by Marcel Wanders studio for some installations and today redesigned for Qeeboo in a large size. Qeeboo develops also the Sweet Brothers, five brothers in different soft touch colors. Find them in black, white, light blue, yellow and terracotta, assuming different postures. They create an animated landscape characterising the table and every corner of the house. This family of portable rechargeable battery-operated LED lamps is equipped with a soft touch switch.

Rabbit

designed by
Stefano Giovannoni

**Chair / Doorstopper /
Bookend / Lamp**

Rabbit is one of Stefano Giovannoni's hat tricks, which immediately became a pop icon, a symbol of love and fertility, which brings good luck and good wishes. The idea of the rabbit, a gentle, lovable and shy animal, comes from the association of its silhouette with the one of a seat, where the rabbit's ears become the backrest of the chair.

Designed originally in two versions, for adults and children, the Rabbit chair can be used to sit leaning against the ears or on the opposite side, riding it and resting the forearms on its ears. The two rabbits are also available in the LED light version suitable for both indoor and outdoor use. Over the years the family has seen the introduction of an XS size as well sold in three different versions: LED lamp, doorstopper and velvet finished bookend.

Behind Qeeboo's products there is a strong research on materials and finishings. In particular the velvet and the metal finishes. Qeeboo is the only company that has successfully managed to apply PVD (physical vapor deposition) metal finishes on polyethylene material, creating an exclusive sculptural product.

The Rabbit Tree is the table of the Rabbit Chair. It is a small tree with two support levels. The higher branch holds a 70 cm wide circular top at a height of 75 cm that matches with the Rabbit Chair. The lower branch can either be used to accommodate a Rabbit Baby Chair or serve as a handy holder for bags or other objects.

Stefano Giovannoni

Multi-purpose and massive, he carries a torch that, with an adjustable arm, directs the light beam at different angles, illuminating both indoor and outdoor locations. Available in two different sizes.

Stefano Giovannoni

TEDDY GIRL LAMP, DESIGN STEFANO GIOVANNONI

Fallen Chandelier

designed by
Studio Job

Lamp

Fallen Chandelier is the last masterpiece by Studio Job, a floor lamp suitable for indoor and outdoor environments. Inspired by their unforgettable art installation named "Fallen Chandeliers", a series of off scale lamps scattered on a large field where once a royal palace stood. As memory of the missing palace only the lamps were left on the ground. Qeeboo transforms this art project into a design object that reflects the same timeless dream. Influenced by 19th century Thonet classic curves, this object travels through times to be the outstanding protagonist in each place it lives in.

Turtle Carry

designed by
Marcantonio

**Planter and Champagne Cooler /
Pouf / Lamp / Coffee Table /
Bookcase**

Turtle Carry family is inspired by the natural world and its bizarre shapes translating them into speaking objects full of irony and cheerfulness. Somebody said that turtles are the most savior and adaptive among all animals because they walk around carrying their homes on the shoulders. Our Turtle is no exception, sustaining on its shell a book pile, a coffee table, a soft cushion, a lamp and a planter. And that's not all: our tireless friend is going to move around even more items with different uses, creating new surprising combinations.

TURTLE CARRY LAMP, DESIGN MARCANTONIO

After the success of Turtle Carry, Marcantonio designed the iconic turtles in a small version. The carapace supports a small planter, a pocket emptier and a jewelry tree.

Paris

designed by
Studio Job

Lamp

Paris lamp designed by Studio Job is a tribute to Job Smeets' bohemian years when he lived in Paris and the magnificent Dame de Fer was his neighbour, a reassuring presence in his life. The concept of the lamp refers clearly to the iconic shape of the Tour Eiffel that, while bending forward, becomes the supporting stem of the brass diffuser. Initially produced as a limited edition, the lamp has been completely redesigned both in terms of shape and material.

Mexico

designed by
Studio Job

**Stool and Side Table / Lamp /
Planter and Champagne Cooler**

Job was inspired by a legendary figure who lived wrapped in mystery: "the singer without a name". "No one had ever seen her come out of her house, where heavy velvet curtains hid her from the eyes of the curious. The inscrutable singer was the author of a great musical success entitled, in fact, Mexico" (Job Smeets).

The result is a story that plays down on what scares us most, death, meaning that it cancels the features of the face and transforms it into something else. Decorated with the Mexican skull's graphic pattern, a symbol created to exorcise death and celebrate life, it can become an extravagant stool, side table or planter.

Cherry

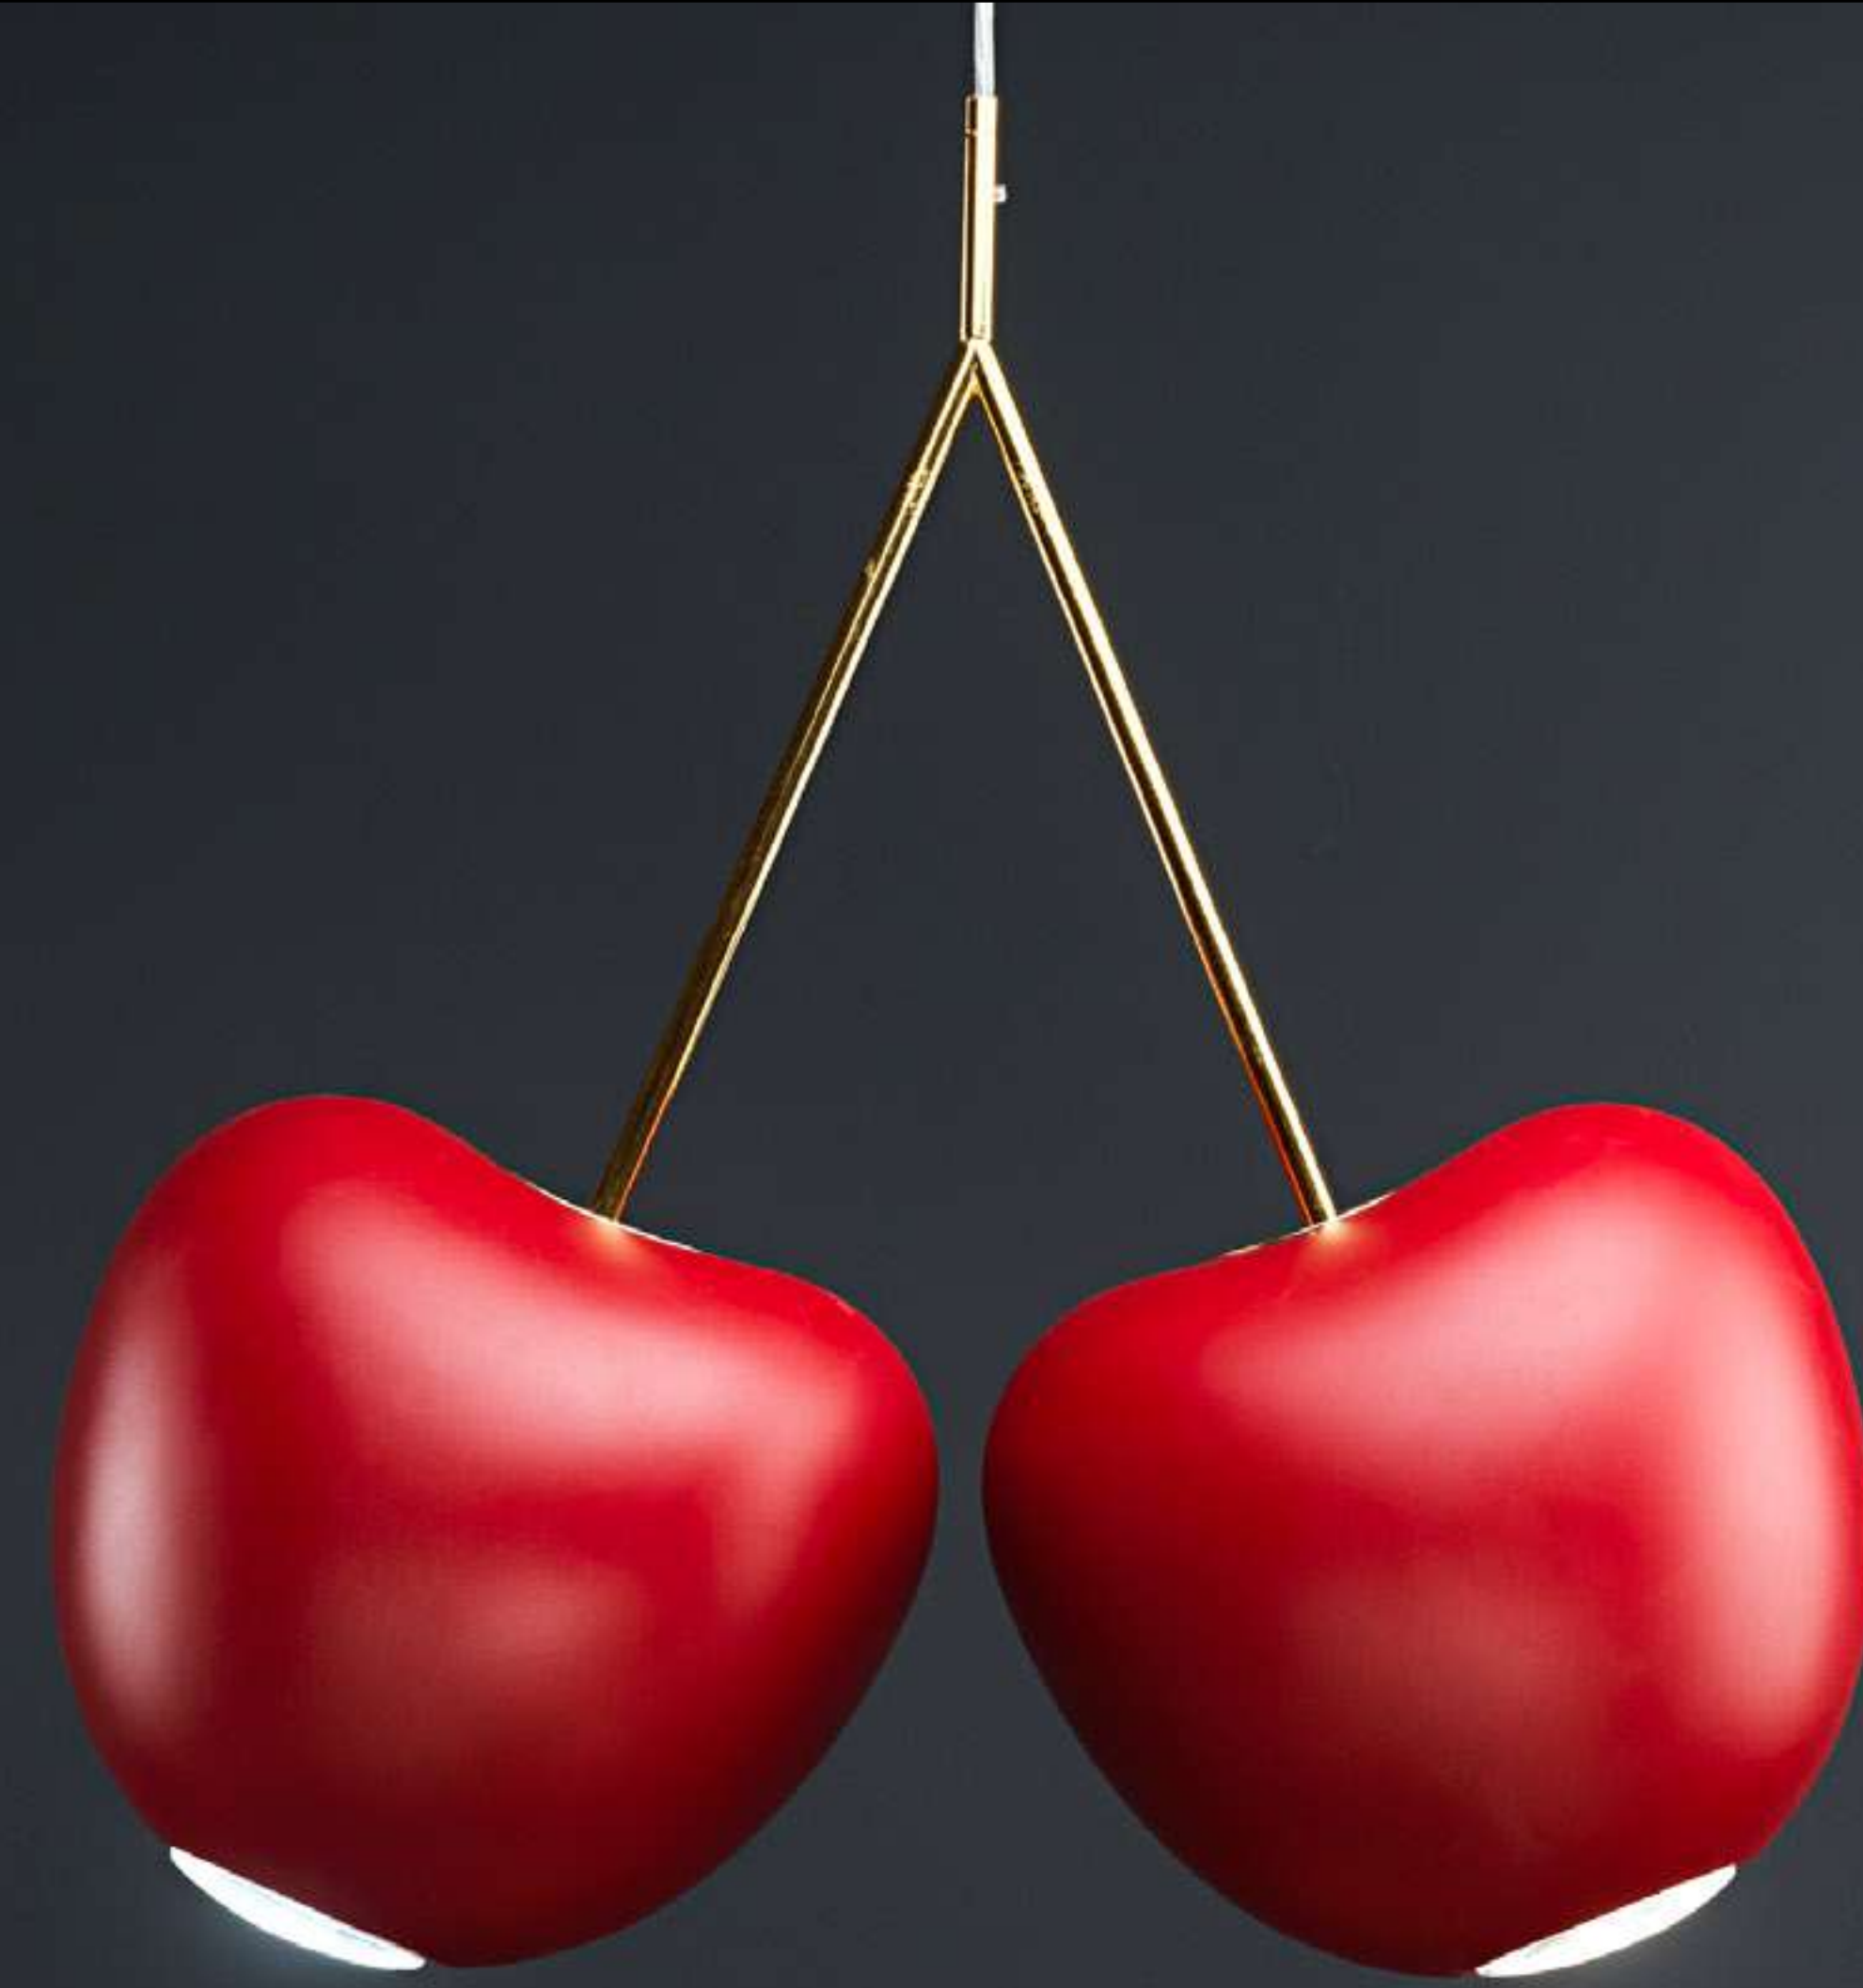

designed by
Nika Zupanc

Lamp

With the generous strokes of Nika Zupanc's pencil, the cherry fruit becomes a suspended ceiling lamp with a LED light bulb. With its curves the Cherry lamp is a provocative pendant lamp: useful and seductive at the same time. This lamp references the instinct of grasping fruit directly from the tree.

Sherwood

designed by

Lamp

Sherwood is an impressive 2-meter-high deer for indoor and outdoor spaces whose antlers become chandeliers decorated with crystals and pendants. Killer

designed by
Studio Job

**Umbrella Stand /
Champagne Cooler**

"Mr Holder was a shark who loved swimming but could not do it. He was mocked by all the other sharks who called him a 'boring little girl'. Poor thing! Then two famous designers with their superpower to reinterpret the simplest objects of daily life, transformed Mr Holder into Killer, an unusual umbrella stand, saving him from his sad destiny." (Job Smeets)

From an umbrella stand to a champagne cooler, Killer allows total freedom of interpretation and use in the home and beyond.

Bonos

designed by
Dai Sugasawa

Bench

Dai Sugasawa loves to visit regularly the Natural History Museum. He had always been fascinated by the huge size of dinosaur bones. His dream was to own one at home, in his own garden. With Qeeboo this dream becomes reality! Both children and adults can enjoy sitting where they want on a big and funny 2 meter long bone.

Cat Cave

designed by
Stefano Giovannoni

Home-cave-refuge for cats

It is composed of two overlapping stones: the bottom cave has a scratching mat on the floor and a soft ball hanging from the ceiling. The top one is characterised by a port-hole that allows the cat to enter, protect himself and examine the outside world, planning the next domestic attack.

Plateau Miroir

designed by
Studio Job

Mirror

The precious classic 17th century tray is revived today in an object designed to be out of scale, which takes on a new functionality, to be used as a mirror on the wall. The mirror can be hanged either vertically or horizontally. The silver metal version with the same finishing and reflection of the mirror, creates a very sophisticated homogeneous effect.

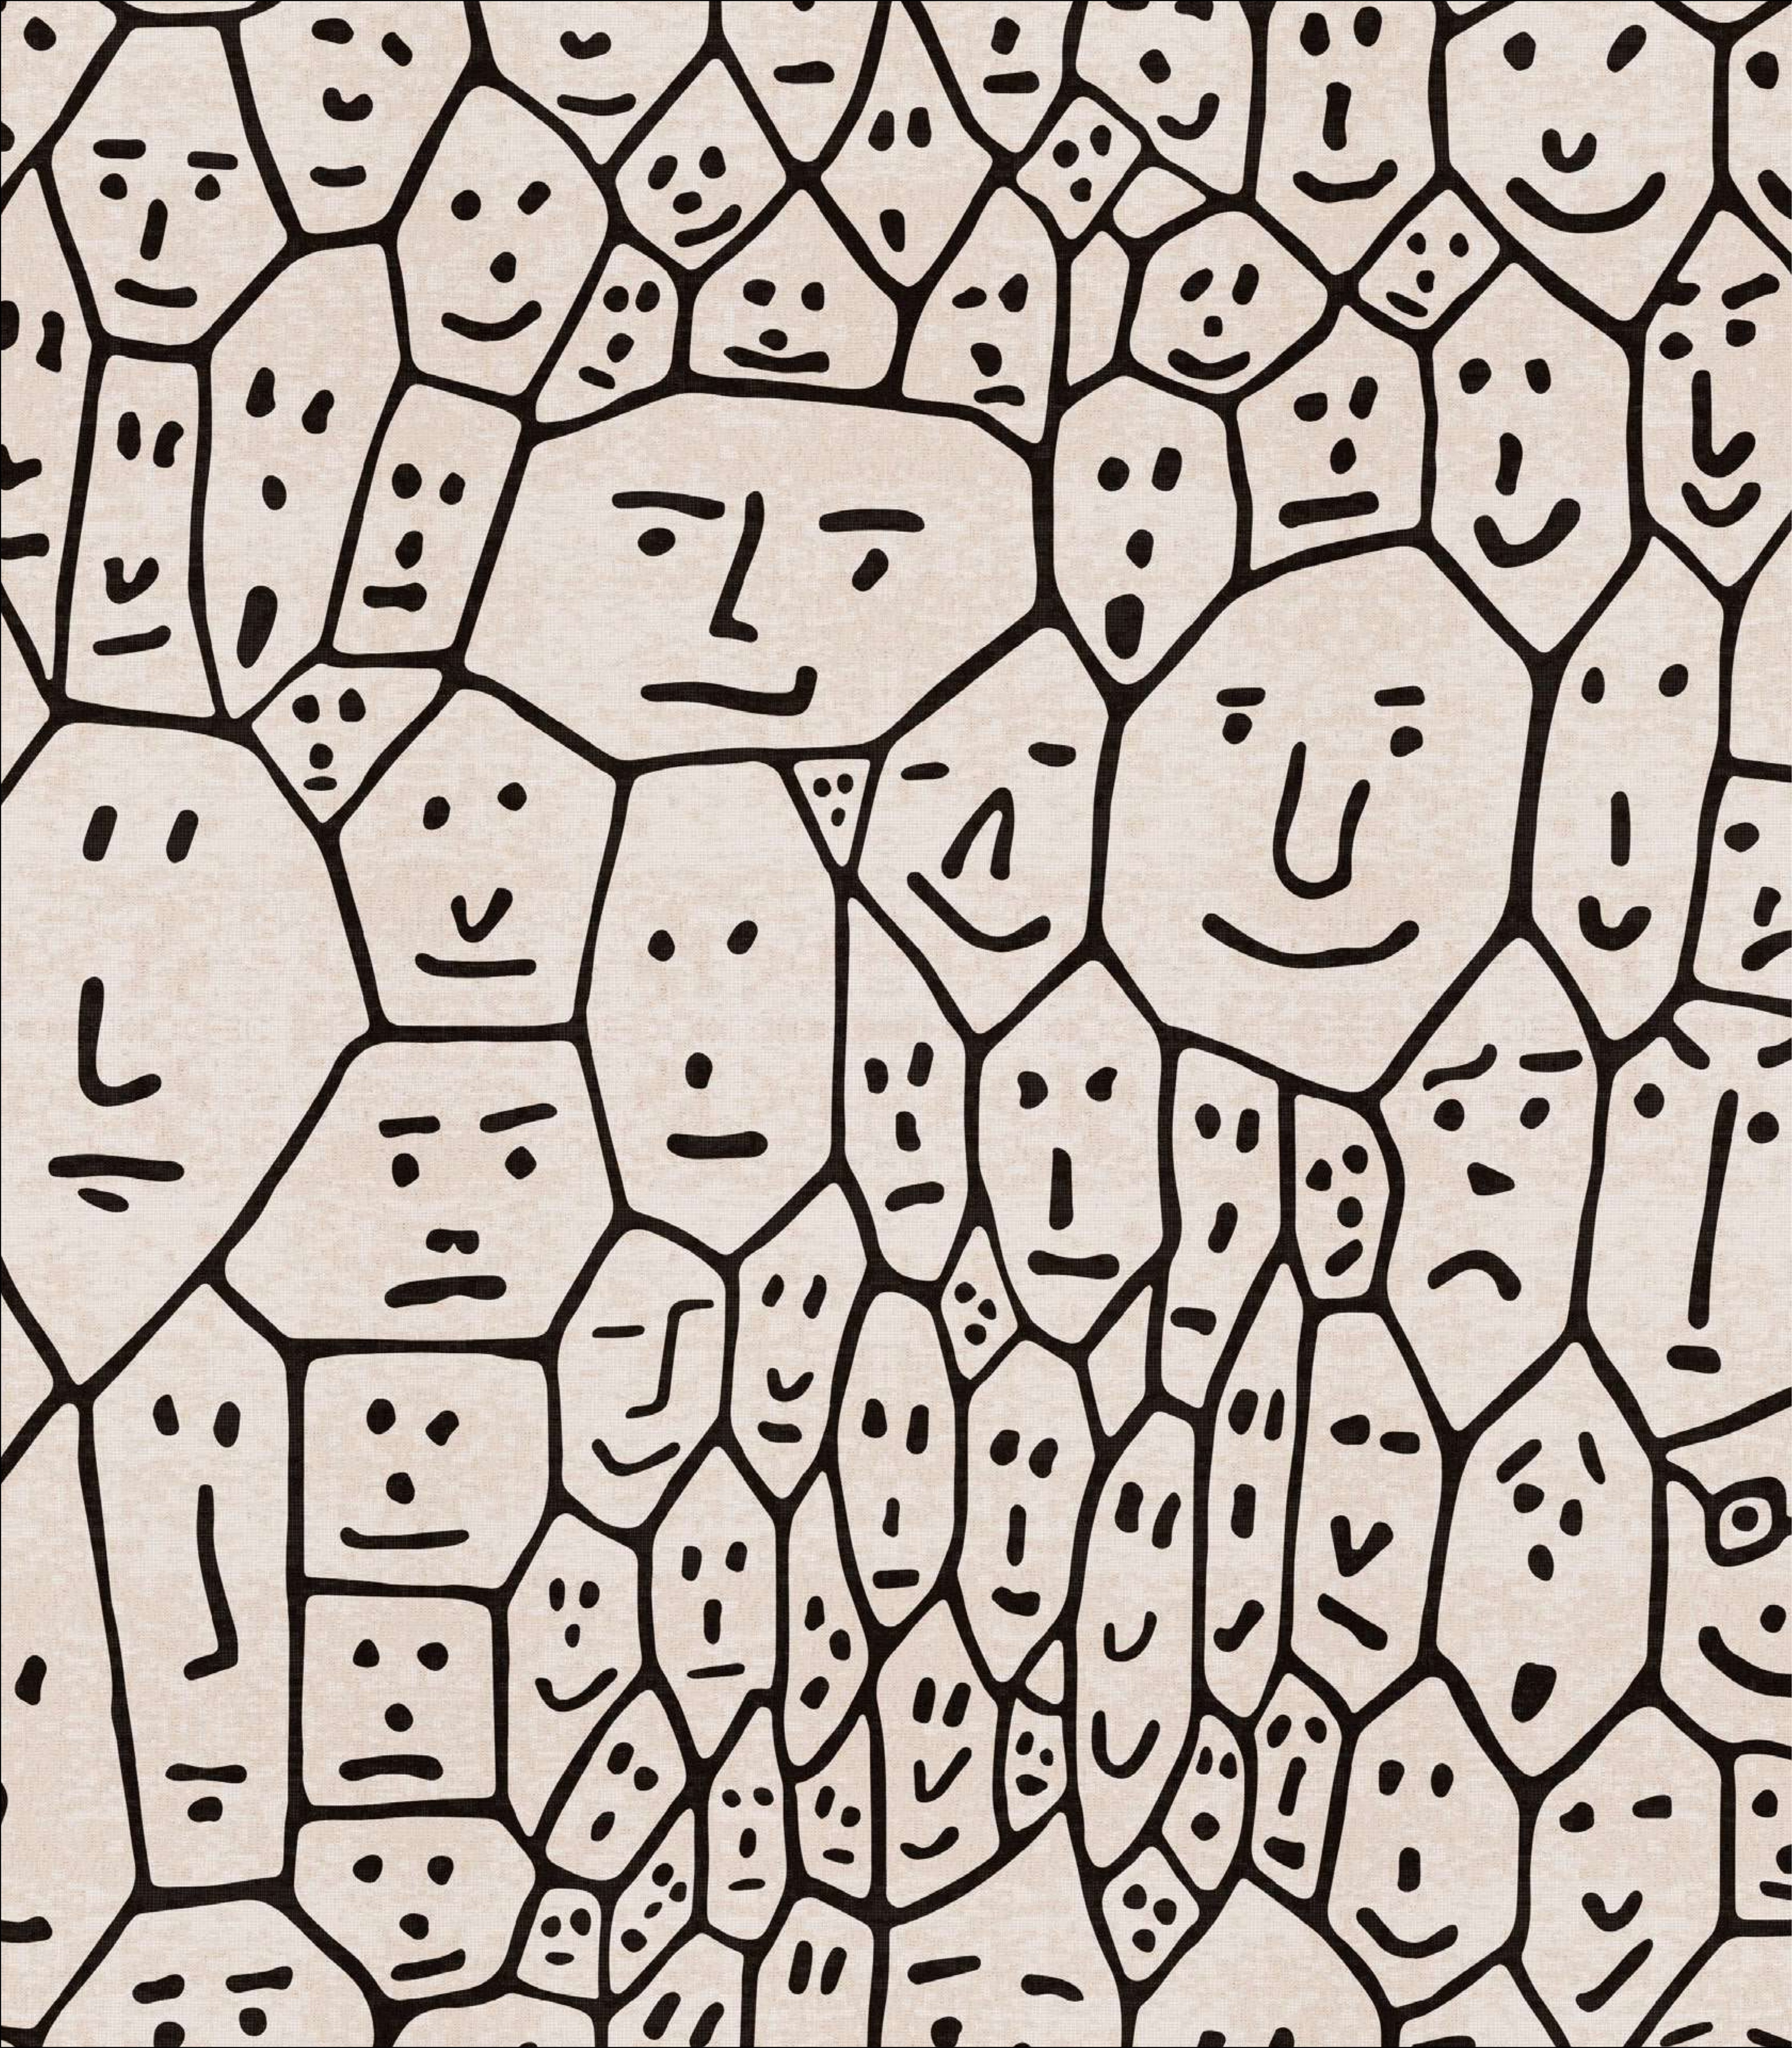

Loop

designed by

Chair

Front's Loop Chair has a dynamic, asymmetrical shape. "Just as human bodies are not symmetrical we wanted to create a chair that feels individual and allows different ways of sitting." The Loop Chair is produced in two versions: upholstered with cushion and without cushion and it's perfectly stackable.
